

SLIM.

TARGETED FAT REDUCTION

Indication:

Revitalize Slim is indicated for localized fat accumulation and cellulite reduction. Common indications: submental fullness (double chin), abdominal pooch or love handles, thighs and buttocks with cellulite, upper arms “fat pockets”, bra-line fat or knee fat.

Professional application:

Apply to face, neck, décolletage and hands using device-assisted techniques such as microneedling or electroporation. Using the Revitalize Pen may speed up visible results.

Treatment plan:

Treatment: 1 session every 15 days, 6–8 sessions (according to results)

Maintenance: 1 session every 30-60 days

Contents (INCI):

Phosphatidylcholine – 3%, Sodium Deoxycholate – 2%. Carnitine, Insulin-like growth factor

Packaging:

5 vials, 10 ml each.

Formula highlights:

While not a weight loss solution, it effectively aids in inch loss and refining body contours when used in a series of treatments, especially when combined with a healthy lifestyle. Often results include a slimmer appearance in the treated zone and improvement in skin texture (less dimpling from cellulite).
